Wood and Stone Finishes **EURO NATURE AND TOP NATURE**

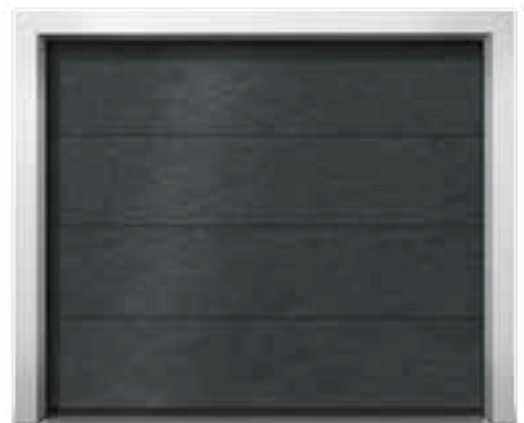

NEW!

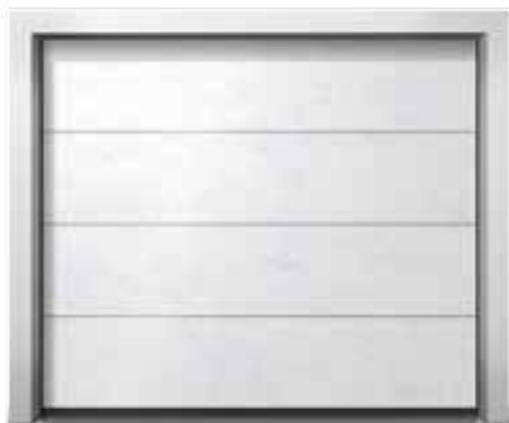

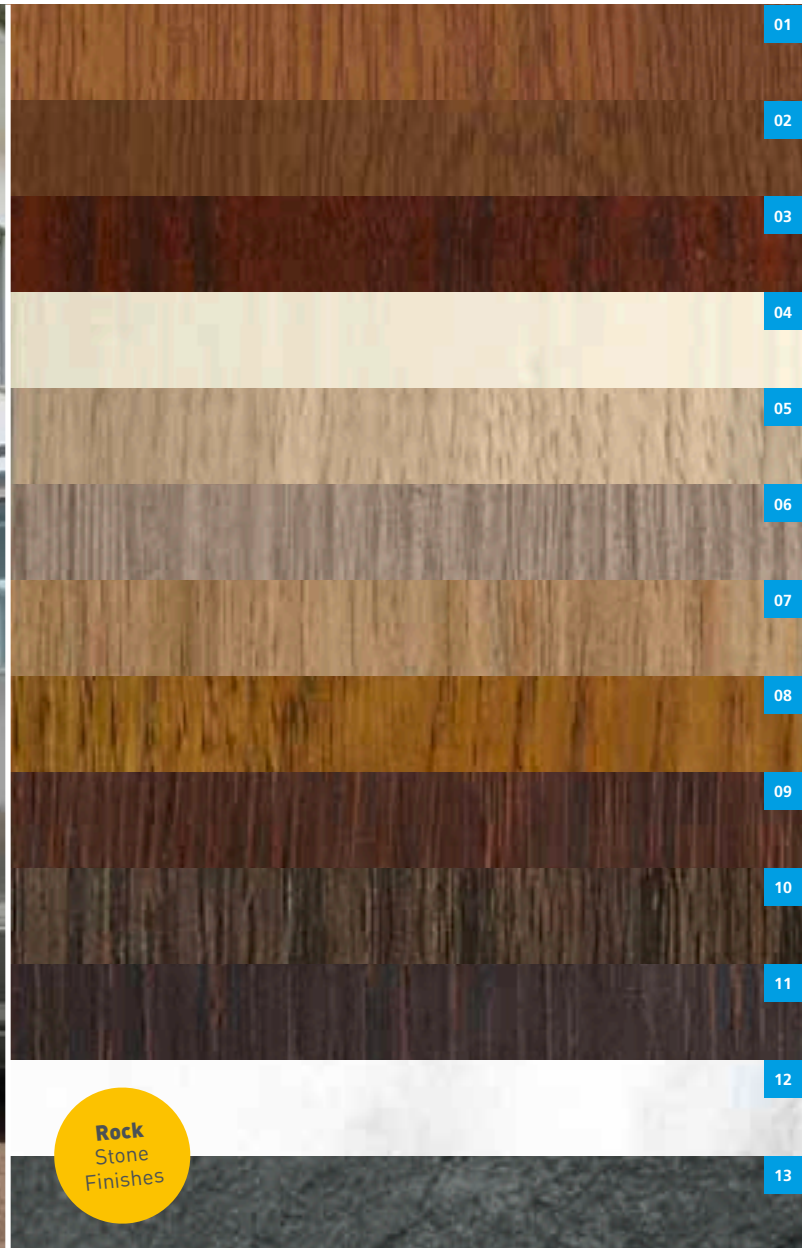

10 new Nature Finishes

Normstahl presents 8 new wood finishes and 2 new stone finishes for the Euro and Top doors. Now you can choose from 13 different laminate surfaces with highly detailed structure.

An excellent choice if you love natural materials but also the easy-care character of steel surfaces. Forget about troublesome painting; your door with a wood or stone finish will always look like new!

Dynamic line management **EUROTWIN & TOPTWIN**

NEW!

We are now introducing two new styles to the Sectional door range. The Eurotwin Overhead Sectional Door and the Toptwin Side Sectional Door come with evenly spaced embosses to replicate tongue and groove designs found in modern and classical building styles.

Twin has fully galvanised steel plate panels, double-layered and burned colour, as all models of the series Euro and Top. It comes with double-walled, stable and insulated (40 mm) panels with CFC-free PU-foaming. Available in all Normstahl standard colours, laminates and special colours, if desired.

Time for creativity

EURO VARIO

NEW!

The new Overhead Sectional Door Euro Vario opens totally new possibilities in façade planning with a trendy colour mix, where one section is a different colour to the other sections.

Euro Vario is available in models Style, Line, Twin, Flair, Trend and Classic. Choose between the Normstahl standard colours, laminates or special colours to create your individual style.

Creative, individual and versatile Metal & Polymer designs

NEW!

New Metal Designs

Eurostyle door can now be equipped with new design applications. Choose between 11 appealing novelty designs made of brushed metal in silver/natural.

New Polymer Designs

The new design applications are also available from polymer. Choose between 10 interesting novelty designs made of polymer in silver metallic.

Design idea: order a kit with the design applications and provide your entrance door with the same design as your garage door!
See a detailed overview about the design applications at www.normstahl.com.
